I have no doubt that the Pharisees and Sadducees were very much surprised to hear John addressing them in that way; for men, who wish to win disciples, ordinarily adopt milder language than that, and choose more attractive themes, for they fear that they will drive their hearers from them if they are too personal, and speak too sharply. There is not much danger of that nowadays, for the current notion abroad now is that gospel ministers can sew with silk without using a sharp needle; and that, instead of piercing men with the sword of the Spirit, they should show them only the hilt of it; let them see the bright diamonds on the scabbard, but never let them feel the sharpness of the twoedged blade. He must have been greatly taken aback when John talked to him about the wrath of God, and plainly told him that that wrath was as much for him as for other people. But this wrath is in abeyance for a time; and, consequently, men do not think is it equally necessary, in the much either of the wrath that very nature of things, that sin now is, or of "the wrath to should be punished, and that come." It will not, however, always be in abevance. The sluices of the great deep will be pulled up, and the awful torrents will come leaping forth, and will utterly overwhelm all who are exposed to in the very nature of things, that their fury. This "wrath to come" will in part fall upon men at death, but more fully at the day of judgment, and it will continue to flow over them fore the bar of God. Do not for ever and ever. This "wrath to come" is that of which John spake, and of which we will now think for a while.

I remark, first, that *this* "wrath to come" is absolutely that just as if you take poison, just and necessary. If there be it will kill you; or if you ina God, He cannot let sin go unpunished. If He be really God, and the Judge of all the disease, it will bring pain and earth, He must have an utter mischief to you, — so, sin abhorrence of all evil. As it is necessary, in the very nature of things, that there should be certain laws to govern His creation, so every transgression and disobedience should receive a just recompense of reward. This is the inevitable consequence of sin; there is nothing arbitrary about such a result. It is fixed, "for every idle word that men shall speak, they shall give account in the day of judgment;" and for every sinful action, they must appear bethink when we speak about the wrath of God, that we picture God to you as a tyrant. In the fifth century the Western Church ordered it to be celebrated forever on the day of the old Roman feast of the birth of Sol, as no certain knowledge of the day of Christ's birth existed."

Now notice! These recognized historic authorities show Christmas was not observed by Christians for the first two or three hundred years—a period longer than the entire history of the United States as a nation! It got into the Western, or Roman church, by the Fourth Century A. D. It was not until the Fifth Century the Roman church ordered it to be celebrated as an official "Christian" festival!

Heathen Relics

There are a great many things that come in connection with the celebration of Christmas. For instance the Christmas tree and the decorations. This text in Jer. 10:2-4 is interesting in this connection and I would like to read it tree came in because so many people are vain; for one develop one new leaf each

This sounds like the decorating of a Christmas tree, doesn't it? What does history tell us is the origin of the Christmas tree and its decorations? Let me read from the "World Book" on Christmas: "The giving of presents, the use of holly, mistletoe, Yule logs have all descended from the days of Paganism . . . When the pagans of northern Europe became Christians they made their sacred evergreen trees a part of the Christian festival and decorated the trees with gilt, nuts and apples in admiration of stars." the Another writer makes the statement that these various worshippers worshipped the stars and planets and they colored these decorations on the trees to typify the planets and the stars and then hung them on the tree, representing the planets' motion around the sun. The text in Jeremiah brought out the same idea — be not dismayed at the signs of the heavens, the planets and the stars, for the heathen are dismayed at them. They couldn't understand them as they worshipped them.
